

MICKEY SCUDDER SCHOLARSHIP IN FIELD BIOLOGY

The Webster Groves Nature Study Society is pleased to announce that applications are being accepted for the Mickey Scudder Scholarship in Field Biology, an annual award to support the field work of a graduate student in natural history. The Scudder grant honors long time WGNSS member Mickey Scudder, who is well remembered for her infectious enthusiasm towards field work, particularly with wild birds.

The scholarship is eligible graduate students registered for advanced degrees (M.S., M.A. or Ph.D.) at universities in the Greater St. Louis Metropolitan area. These institutions include: St. Louis University, University of Southern Illinois, Edwardsville, University of Missouri at St. Louis and Washington University.

Graduate students planning field work in areas such as ornithology, systematics of plants or animals, entomology, forestry, ecology, behavior, population genetics, etc. or those desiring to attend a field station to take course work in such areas are invited to apply for the scholarship. The amount to be awarded will be up to \$1,000 for one year.

Applications to the education committee must include the following:

1. Abstract not exceeding 250 words; summarizing proposed work, how scholarship funds will be used and brief biography.
2. Summary description (5 page maximum) of your work in terms understandable to non-technical reviewers. Summary should include; project goals, methodology, and how results will benefit your nature study. Field course applications should identify course/institution, and how the course will complement home campus classes.
3. Budget of expected costs. Expenses above award limit are responsibility of awardee.
4. Curriculum vitae of academic career; education and degrees, institutions and dates, summary of related courses, grades, conservation activities, etc. Transcripts are not required.
5. Two letters of recommendation from current or former faculty, submitted independently. One must be from your advisor and specify; (a) you are a bona fide student currently registered for a B.A., B.S., M.S., or Ph.D. degree, (b) your expenses are not already covered by existing funds, and (c) the award would enhance your work.

Please send as an electronic submission (<10 MB) to Scott George at sgeorge3806@gmail.com.

Scholarship Schedule:

1. February 15, 2019. **Application deadline.** Word or PDF format preferred. Costs may be Excel.
2. April 5, 2019: Award notifications due to students.
3. May 2019: Recipient presentation at WGNSS general meeting.
4. June 2019: Funds awarded to recipient's institution. Award period is one year.
5. June 2020: Recipient's summary report due to WGNSS.

The winner will be invited to the annual WGNSS dinner meeting in May 2019, to give a short presentation on the project. Within one year of receiving the funds, the winner is required to submit a brief written report to WGNSS and acknowledge the grant in any resulting published material.

The award will be made to the applicant's institution, which is expected to establish and monitor a fund as appropriate to curate the stipend. The funds may carry over beyond the year of award, if to the benefit of awardee's research. The funds cannot be used to pay overhead to any institution. Automobile travel is reimbursed at institution's rate. Expenses for air travel are based on tourist class. Personal expenses should not be included. Scientific supplies and equipment should be itemized. Field course expenses should include tuition, room/board, and travel.
