

## **MICKEY SCUDDER SCHOLARSHIP IN FIELD BIOLOGY**

The Webster Groves Nature Study Society is pleased to announce that applications are being accepted for the Mickey Scudder Scholarship in Field Biology, an annual award to support the field work of a graduate student in natural history. The Scudder grant honors long time WGNSS member Mickey Scudder, who is well remembered for her infectious enthusiasm towards field work, particularly with wild birds.

The scholarship is eligible graduate students registered for advanced degrees (M.S., M.A. or Ph.D.) at universities in the Greater St. Louis Metropolitan area. These institutions include: St. Louis University, University of Southern Illinois, Edwardsville, University of Missouri at St. Louis and Washington University.

Graduate students planning field work in areas such as ornithology, systematics of plants or animals, entomology, forestry, ecology, behavior, population genetics, etc. or those desiring to attend a field station to take course work in such areas are invited to apply for the scholarship. The amount to be awarded will be up to \$1,000 for one year.

Applications to the education committee must include the following:

1. Abstract not exceeding 250 words; summarizing proposed work, how scholarship funds will be used and brief biography.
2. Summary description (5 pages maximum) of your work in terms understandable to non-technical reviewers. Summary should include; project goals, methodology, and how results will benefit your nature study. Field course applications should identify course/institution, and how the course will complement home campus classes.
3. Budget of expected costs. Expenses above award limit are responsibility of awardee.
4. Curriculum vitae of academic career; education and degrees, institutions and dates, summary of related courses, grades, conservation activities, etc. Transcripts are not required.
5. Two letters of recommendation from current or former faculty, submitted independently. One must be from your advisor and specify; (a) you are a bona fide student currently registered for a B.A., B.S., M.S., or Ph.D. degree, (b) your expenses are not already covered by existing funds, and (c) the award would enhance your work.

Please send as an electronic submission (<10 MB) to Scott George at [sgeorge3806@gmail.com](mailto:sgeorge3806@gmail.com).

**Scholarship Schedule:**

1. February 18, 2022. **Application deadline.** Word or PDF format preferred. Costs may be Excel.
2. April 15, 2022: Award notifications due to students.
3. May 2022: Recipient presentation at WGNSS general meeting.
4. June 2022: Funds awarded to recipient's institution. Award period is one year.
5. 2022 to 2023: Recipient's article to the WGNSS Nature Note journal.

The winner will be invited to the annual WGNSS dinner meeting in May 2022, to give a short presentation on the project. Within two years of receiving the funds, the winner is asked submit a summary article for the WGNSS Nature Note journal, and acknowledge the grant in any resulting published material.

The award will be made to the applicant's institution, which is expected to establish and monitor a fund as appropriate to curate the stipend. The funds may carry over beyond the year of award, if to the benefit of awardee's research. The funds cannot be used to pay overhead to any institution. Automobile travel is reimbursed at institution's rate. Expenses for air travel are based on tourist class. Personal expenses should not to be included. Scientific supplies and equipment should be itemized. Field course expenses should include tuition, room/board, and travel.
